

NEURON CONNECT PRESENTS

Dr. Lauro Amezcua-Patino, MD, FAPA

Board-Certified Neuropsychiatrist • Expert Witness • Medical Director – Neuron Connect Arizona

Why Dr. Patino Is Arizona's Leading Expert in Brain Injury and EEG-Based Diagnostics

For more than three decades, Dr. Lauro Amezcua-Patino has been a pillar of Arizona's neuropsychiatric and behavioral-health community. As a Board-Certified Psychiatrist and Fellow of the American Psychiatric Association, Dr. Patino brings a rare combination of clinical precision, forensic experience, and compassionate care to every case.

His expertise bridges psychiatry, neurology, and brain-mapping science — making him one of the most qualified physicians in the state to evaluate, diagnose, and testify in traumatic brain injury (TBI) and post-concussive cases.

EEG & qEEG Expertise You Can Trust

- **Clinical Authority:** Dr. Patino leads Neuron Connect's Arizona medical team, overseeing advanced quantitative EEG (qEEG) analysis and brain-function reporting.
- **Objective Evidence:** His qEEG-based reports transform invisible cognitive dysfunction into clear, court-ready neurological data — helping attorneys demonstrate causation and impact with precision.
- **Comprehensive Oversight:** Each Neuron Connect report is reviewed by Dr. Patino to ensure accuracy, clarity, and adherence to clinical and forensic standards.
- **Expert Witness:** With decades of courtroom and medical-review experience, Dr. Patino provides professional testimony to support head-injury claims, linking medical science with legal defensibility.

Why Top Legal and Medical Teams Choose Neuron Connect

Neuron Connect is Arizona's only neurodiagnostic and neurotherapy center combining advanced qEEG Brain Mapping and Neurofeedback Therapy under one roof — fully physician-supervised.

We do more than diagnose — we treat.

- **Therapy Backed by Brain Science:** Our treatments are guided by brain-map data to target the exact regions disrupted by trauma.
- **State-of-the-Art Equipment:** Using Brain Master's dry-cap neurofeedback technology, clients experience painless, comfortable sessions without messy gels or downtime.
- **Real-World Recovery:** Most clients return immediately to work or daily activities — no sedation, no waiting, no discomfort.

Dr. Patino's Edge in Personal-Injury Litigation

- Expert in psychiatric and neurological overlap — depression, PTSD, anxiety, and cognitive impairment post-TBI.
- Experienced in Medicaid/Title XIX systems, ensuring accurate medical documentation and billing compliance.
- Fluent in English & Spanish, serving Arizona's diverse client population with cultural sensitivity.
- Trusted by top Arizona law firms for case reviews, testimony, and treatment oversight.

When Precision Matters — Choose Neuron Connect

Backed by Dr. Lauro Amezcua-Patino, Neuron Connect delivers objective data, expert testimony, and compassionate recovery — ensuring your TBI clients receive the medical validation and clinical care they deserve.
